معرفی شرکت:

مهندسی مساحت آفره (سهامی خاص)

گامی بزرگ در جهت توسعه پایدار

تهران - تابستان ۱۳۹۴
نماینده فنی و مهندسی شرکت A++

Milan, Belgrade, Jeddah, San Paolo, Shanghai, Singapore, Sofia, Tehran, Athens

تهران، خیابان ولیعصر، باغ فردوس، جنب کوچه طوس شماره ۳۰۴۷ طبقه ششم، واحد ۳۲ تلفن: ۲۲۶۱۵۷۱۷ - فکس: ۲۲۷۲۰۷۲۷

معرفی شرکت

شرکت مهندسی مساحت آفره در سال ۱۳۸۷ با توجه به سوابق و تجارب بیش از دو دهه گروه سهامداران و مدیران خود در حوزه فعالیتهای عمرانی و ساخت تاسیس گردید و در سال ۱۳۹۰ با اخذ نمایندگی گروه شرکتهای A++ ایتالیا فعالیت خود را در حوزه طراحی معماری، ساخت و اجرای پروژه ها بصورت کلید در دست و ارائه طرحهای مبتنی بر بهینه سازی انرژی در ساختمانها توسعه داده است.

گروه A++ ایتالیا بر اساس بیش از ۶۰ سال اندوخته و تجربه در حوزه های انجام پروژه های عمرانی، ساخت، طراحی، معماری، مرمت و نگهداری بنا در سال ۲۰۰۳ توسط آقای Paolo Colombo به نام Colombo +associates در شهر میلان کشور ایتالیا تاسیس شد و در سال ۲۰۰۹ به نام A++ و با رویکرد "معماری پایدار"، "معماری سبز" تغییر نام داد.

در یک دید کلی پروژه های انجام شده قبلی گروه مهندسی مساحت آفره و A++ را می توان به صورت زیر خلاصه نمود:

- + THAN 12 COUNTRIES
- + THAN 70 REALIZATIONS WORLDWIDE
- + THAN 40 SPA PROJECTS & REALIZATIONS
- + THAN 1mln SQM OF PLANS

شرکت مهندسی مساحت آفره در سال ۲۰۱۵ میلادی با همکاری و به نمایندگی شرکت GST Building Energy Efficiency Services در جهت توسعه خدمات طراحی های مهندسی خود بر اساس معماری سبز و پایدار اقدام به پیاده سازی و انتقال تکنولوژی فرآیندهای طراحی استاندارد های^۱ USGBC نمود و لذا توانایی صدور گواهینامه های استاندارد بین المللی^۲ LEED را برای ساختمان ها برای اولین بار در ایران فراهم آورد.

² LEED: Leadership in Energy & Environmental Design

Milan, Belgrade, Jeddah, San Paolo, Shanghai, Singapore, Sofia, Tehran, Athens

تهران، خیابان ولیعصر، باغ فردوس، جنب کوچه طوس شماره ۳۰۴۷ طبقه ششم، واحد ۳۲ تلفن: ۲۲۶۱۵۷۱۷ - فکس: ۲۲۷۲۰۷۲۷

خدمات حرفه ای شرکت مهندسی مساحت آفره:

شرکت مهندسی مساحت آفره طی دوره فعالیت خود در پروژه های مختلفی با نقشهای متفاوت حضور داشته است. در برخی از این پروژه ها این گروه بصورت یک پیمانکار EPC اجرای کل پروژه را بطور کامل بر عهده داشته و در بخشهای دیگری به عنوان طراح ، مجری و یا تامین کننده ظاهر شده است.

در یک تقسیم بندی موضوعی ، پروژه های انجام شده قبلی را می توان در گروه های زیر مطرح نمود و به توانمندیهای گروه در موارد زیر اشاره کرد:

+ طراحی و ساخت مجتمعهای مسکونی ، اداری و صنعتی با رویکرد تامین انرژی مورد نیاز از طریق منابع

طبیعی - Energy Saving Solutions

+ ارایه مشاوره طراحی ، مدیریت طرح و اجرای کلیه عملیات عمرانی و خدمات.

+ ارایه خدمات تاسیسات برق ، مکانیک و کلیه خدمات فنی و تاسیسات ساختمان.

+ طراحی و ساخت کمپهای مسکونی و اداری، برجها و مجتمع های مسکونی ، اداری و هتلها

+ مشاوره های تخصصی در خصوص اخذ گواهینامه LEED در حوزه های زیر:

+ ساختمان سازی (نو سازی) : ساختمانهای مسکونی نو ساز، بیمارستانها، مراکز دیتا سنتر ها، هتل ها،

مدارس و دانشگاه ها، ساختمانهای تاسیساتی، انبار ها و سوله های صنعتی و غیر صنعتی، بانکها،

فروشگاه ها، رستوران ها و

+ طراحی و معماری داخلی: ساختمانهای مسکونی، اداری و تجاری، خدماتی و گردشگری

+ مرمت و باز سازی : اصلاح و بازبینی و ارائه طرح های تمام موارد نوسازی و معماری داخلی

+ طرح های جامع معماری: استفاده از معیار های منطبق با اصول LEED در معماری و طرح های

جامع شهر سازی و گسترش فضاهای شهری

+ مشاوره های فنی و تخصصی مباحث مصرف انرژی در ساخت و بهره برداری صنایع نفت و گاز (کاربرد در

صنایع ساختمان سازی و صنایع دقیق)

+ طراحی مهندسی، محاسبه و ساخت و نصب سازه های فلزی سنگین با امکانات تولید ۳۲۰۰ تن در ماه

+ خدمات مهندسی فنی معماری (خدمات استاندارد بین المللی به دفاتر شرکتها و پروژه های مهندسی

خارجی در ایران)

+ ارائه نقشه های طراحی فاز ۲ معماری، الکتریکال و مکانیکال، محوطه و داخلی - مستند سازی مهندسی

طبق استاندارد مهندسی RIBA Plan of Work 2013

+ ارائه سرویسهای تخصصی (BIM (Building Information Modeling) جهت استاندارد سازی،

مدل و کنترل پروژه ها از نظر زمان و هزینه

- + مشاوره های مربوط به حفاظت از محیط زیست
- + تست های نشت هوا با استاندارد های ASTM E783
- + تست های کیفیت و مقاومت هوا (تست های مربوط به نفوذ) اجرا شده در: دانشگاه دبی، ساختمانهای مسکونی ارتش امارات، ساختمان مسکونی در دالاس ایالت تگزاس
- + مشاوره های طراحی مربوط به آلودگی صوتی

برخی از پروژه های نمونه انجام شده توسط شرکت و همکاران

همکاران و شرکای شرکت مهندسی مساحت آفره در پروژه های متعددی فعالیت داشته است. برخی از این پروژه ها عبارتند از:

سازه های فلزی سنگین:

شرکت مهندسی مساحت آفره با مشارکت سهامی با شرکت مهندسی سازه صنعت بادبند^۱ با هدف انجام پروژه های ساختمانی و صنعتی، محاسب، طراح و سازنده سازه های سنگین فلزی، نیروگاه ها، صنایع نفت، گاز و پتروشیمی و همچنین سازه های فلزی صنعتی و ساختمانی سنگین و بلند مرتبه با تکیه بر تجارب متعدد و دانش فنی به روز با اعتقاد به تعهد در کیفیت در سال ۱۳۹۳ مشارکت خود را آغاز نمود.

نگاهی به سوابق شرکت سازه صنعت بادبند به تنهایی مؤید توانایی بالای طراحی و تولید شرکت بوده و تحویل به موقع پروژه های متعدد به هر یک از کارفرمایان خود گواهی است بر عزم راسخ این شرکت در تأمین خواسته ها و جلب رضایت کارفرمایان. بهره مندی از نیروهای متخصص و مجرب، در اختیار داشتن مجموعه ای کامل از ماشین آلات و تجهیزات مدرن، به کارگیری روش های نوین و تلاش و پشتکار مدیران و رعایت کیفیت و استفاده از آئین نامه ها و نرم افزارهای روز دنیا، باعث گردیده که شرکت توانایی خود را در اجرای پروژه های بزرگ در کوتاه ترین زمان ممکن و با کیفیت مطلوب به اثبات رسانده و آرامش خاطر را به کارفرمایان خود هدیه دهد. شرکت مهندسی سازه صنعت بادبند با توجه به اخذ رتبه ۱ ا بنیه و رتبه سازنده اسکلت فلزی از سازمان مدیریت و برنامه ریزی کشور و دریافت ISO3834-3:2005 از موسسه CCPL با تکیه بر توانمندی های شرکت در اجرای پروژه به صورت EPC مهندسی، تدارکات و اجرا، خدمات مورد نیاز کارفرمایان را در این زمینه ارائه می نماید. اهم پروژه های انجام شده و در حال اجرای این مجموعه به شرح ذیل آورده شده است:

۱- پروژه ساخت پایپ رک های فجر پتروشیمی

کارفرما: مپنا بویلر

مشاور: مشانیر

نظارت و بازرسی: مپنا بویلر

وزن سازه 600 تن

۲- پروژه مجتمع تجاری و پارکینگ طبقاتی آصف

کارفرما: آقای اکبری

مشاور: مهندس قائم مقامی

نظارت و بازرسی: مهندس مهدی خدایاری

¹ www.baadband.ir

وزن سازه 1900 تن

۳- پروژه مجتمع تجاری اداری آرتمیس

کارفرما: اتحادیه تعاونی های مسکن نمونه رسا

مشاور: شرکت مهندسی مشاور نوی

نظارت و بازرسی: اتحادیه تعاونی های مسکن نمونه رسا - شرکت فنود

وزن سازه 5500 تن

۴- پروژه امیرکبیر

کارفرما: شرکت صبا میهن

مشاور: شرکت ابنیه نو اندیش

نظارت و بازرسی: شرکت ابنیه نو اندیش

وزن سازه 12.000 تن

۵- پروژه هتل پارتیا

کارفرما: شرکت قصر روشن گلستان

مشاور: شرکت مهندسی ماندگار

نظارت و بازرسی: شرکت مهندسی ماندگار

وزن سازه 1.500 تن

۶- پروژه برجهای هزاره سوم (میلینیوم)

کارفرما: شرکت تعاونی مسکن آشیانه هلیکوپتر

مشاور: مهندسی مشاور مهان مه راز

نظارت و بازرسی: مهندسی مشاور تدبیر ساحل پارس

وزن سازه 17000 تن در ۳ بلوک

در حوزه **طراحی و معماری سبز** و همچنین ساخت نیز این گروه دارای تجارب مختلفی در داخل و خارج از کشور می باشد که با مشارکت با شرکت **A+++** بعد از سال ۲۰۰۹ انجام داده است . لیست برخی از پروژه هایی که شرکت مهندسی مساحت آفره بدون مشارکت **A+++** انجام داده است با رنگ سبز مشخص شده است و در مابقی پروژه ها بصورت مشاوره یا بخشی از پیمان اجرایی همکاری داشته است:

پروژه های ساختمانی (آرشیتکت : مهندس امید غلامپور – مدیر پروژه : مهندس امیر ونداد اخلاقی) :

- + مدیریت پروژه و ساخت کامل ویلاهای کلاسیک و مدرن برادران جابریان – شهرک غرب – سه واحد ویلا
- + مدیریت پیمان و نظارت بر مشاعات ساختمان ۱۰۰ واحدی چناران پارک رزیدنس – خیابان فرشته – آقای بحری
- + مدیریت پروژه ساختمان آقای ریحانی ۱۸ واحد – خیابان فرشته مریم شرقی
- + مدیریت پروژه ساخت ویلای لواسان – خانم فراهانی ۱۰۰۰ متر مربع
- + مدیریت پروژه ساخت ویلای لواسان – آقای حقیقت – ۱۰۰۰ متر مربع
- + مدیریت پروژه ساخت ساختمان کاشانک – آقای مطهری و ترسلی – ۶ واحد
- + مدیریت پروژه ساخت ساختمان فرمانیه ، عسگریان حسینی غربی آقای محمدی – ۱۲ واحد
- + بازسازی منزل شخصی مهندس امید غلامپور – مجتمع چناران پارک – طبقه یازدهم
- + مشاور اجرائی ساخت ساختمان زعفرانیه ، فرخ – آقای دکتر کاردوست – ۱۸ واحد
- + مدیریت پروژه ساخت ساختمان زعفرانیه ، دهقان – آقای فراهانی ۶ واحد
- + مدیریت پروژه ساخت ساختمان سعادت آباد – آقای تورانی – ۱۲ واحد
- + مدیریت پروژه ساخت ساختمان نیاوران آقای نصراله نژاد – ۶ واحد
- + مدیریت اجرای عملیات سفت کاری پروژه مسکونی فرشته جنب باغ موزه – آقای شبستری – ۱۲ واحد
- + مدیریت اجرای عملیات سفت کاری پروژه مسکونی پاسداران گلستان هشتم – آقای علم بیگی – ۱۲ واحد
- + همکاری با آقای مهندس گرامی (سازنده) در پروژه های ساختمانی با عنوان کارشناس، مدیر پروژه یا مشاور

A++ Milan and Laguna

Founded 2003 as the result of a natural metamorphosis of its founder's experienced design firm, today A++ Milan develops international projects related to architecture interiors and industrial design. We employ a flexible approach to the practice and empower an ever changing mix of professionals from all over the world dedicated to various disciplines.

We reach both local and international partners to customize the composition of the team to project needs. The studio gains from its location, the very heart of Milano's design district, to further enhance its vast network of privileged connection with major and minor players of the Italian design world, gained by the founders' former family business in over 60 years of presence in the field, and empowers this in depth knowledge of the market, to gain the access to resources and products not normally reachable by common public therefore having a much wider range of tools to customize its projects. As a result, the practice often employs its purchasing power to offer its clients with a turnkey solution, supplying furniture, materials, and finishes achieving the best quality/costs ratio possible.

Architects & pro

1- Arch. Paolo Colombo (A++ Founder)

Creative Director & Partner

p.colombo@a2plus.it

Graduated at the Polytechnic of Milano in 1998, following his passion for architecture & interior design, gained through the experience at the family company, which specializes in marketing high-end furniture, for which he covered the role of creative director for many years . In 2003, the deep knowledge of the market and his ability to anticipate customer needs developed thought this collaboration, are transferred to the architectural and design studios Colombo+associates in Milano and Belgrade, for which he is founder and creative director. The affirmation at international level is achieved immediately through innovative projects and careful realization of hotels, restaurants, clubs, private residences and wellness center, developed with the concept of total well-being that anticipates times. His work is a job of design and coordination of different training, cultures and skills that enables him to carry out projects that are strongly characterized with regard to attention to detail and the search for solutions. Among the many projects in recent years: the spa hotels Starwood-Astir Palace in Athens, Baglioni hotel in London and Grand Hotel Visconti Palace in Milan, restaurants, public spaces and private residences in Italy, Greece, Serbia, Spain, France , the United States and the Arab Emirates.

2- Arch. Carlo Colombo

Partner and creative director

c.colombo@a2plus.it

Carlo Colombo is considered by international critics the most respected Designer of the new generation. This idea is supported by the many awards he has received in his twenty-year career,

despite his young age. With his international scope he is known in many foreign countries where he is considered the ambassador of Italian design. Born as a designer for the furniture industry, where he still works for Antonio Lupi, Arflex, Artemide, BYografia, Cappellini, IOC, DePadova, Emmemobili, Emu, Flou, Franke, Fratelli Guzzini, Fusital, Gallotti & Radice, iGuzzini, Levi's, Mood-Flexform, Moroso, OLUce, Paola Lenti, Penta, Poliform, Poltrona Frau, Riva 1920, Rugliano, Sabattini, Serralunga, Sisor, Teuco, Thonet Gebruder, Varenna, Zanotta, he also curates exhibitions and cultural events connected with the worldwide Italian cultural project; Carlo Colombo has been awarded many acknowledgements by many foreign countries among which Japan (Designer of the Year 2004). He has worked also as university teacher in Italy between 1999 and 2001 and still today he is a professor of architecture at the University of Beijing. He has lectured in China, Austria, Israel, South Africa, UAE, Russia, America, Japan and all over Europe. His deals with projects from design to interiors all around the world.

3- Prof.Arch. Guido De Novellis

Senior Project Manager

g.denovellis@a2plus.it

Born in 1969, graduated in Architecture at the Politecnico of Milan in 1997. Carries out its activities in the field of design and project management by signing numerous residential projects. He enrolled in the Order of Architects in 1998. He collaborates with the Politecnico of Milan, home of Lecco, where he held positions of professor in Architectural Design at the Faculty of Civil Engineering and Architecture 2000-2012. IN A++ he has had the assignment to be project manager of Falcon Island project in the United Arab Emirates. Having gained a decade of experience in the management of the architectural firm from where he comes. He is now part of the project manager team where he takes care of the technical organization of the studio human resources. It is now engaged in the technical management of the numerous international projects

3- Pellicciari Matteo

Managing Director - Marketing &

Development

m.pellicciari@a2plus.it

Following technical studies in Italy and after further studies performed during his long stay in Australia ended in 1993, he acquired a long experience in marketing and communication through collaboration with various companies in different sectors, from fashion to design, from educational to commercial and trade and acquired furthermore entrepreneurial experience, designing and developing business in Italy and abroad. The collaboration with the architect Paolo Colombo began with the establishment and development of the studio Colombo + associates and continues in A++, for which he is responsible for marketing and communications, including the one related to the many projects in Italy and abroad.

4- Arch. Antonio Della Valle
Design Director
a.dellavalle@a2plus.it

5- Eng. Davide Leonardi
Project Manager
d.leonardi@a2plus.it

Davide Leonardi was Born on 25 October 1985. He obtains a Master degree at Faculty of Building Engineering-Architecture at Polytechnic of Milan in the 2010 and enrolled in the Engineer National Register of Milan since 2011. His career starts in Milano, working for the innovative development “CityLife”, where he has managed the construction of the residential buildings designed by Zaha Hadid and Daniel Libeskind since inception up to final delivery. He takes part in the design, construction and start-up activities getting a fully view and acquiring an extensive experience of management and problem solving of a big development in all its phases and processes. In A++ he is part of the Projects Manager team specifying in the projects related to the gulf area.

6- Arch. Ulrike Morandell
Architecture, interiors design,
conceptual & executive projects
u.morandell@a2plus.it

Born in Bolzano in 1979, she graduated with Master in Interior Design at the istituto superiore di architettura e design, (IED) in Milan. The family business, involved in residential building , provided the guide to real applications and in terms, to cope with various technical and compositional problems. In this context, and through various further collaborations , she acquired a thorough knowledge of structural and compositional techniques of the project in every respect to which applies a mixture of speed of execution entangled by formal rigor to which she in a mixture of rationality and imagination. With A++ she collaborates from conceptual design through to the implementation of some of the most important projects of the study.

7- Arch. - Eng. Andrea Brivio
Architect, engineer, LEED Certifier
a.brivio@a2plus.it

Andrea Brivio was Born on 20 February 1982. He obtains a Master degree at Faculty of Building Engineering-Architecture at Polytechnic of Milan in the 2006 and enrolled in the Engineer National Register of Lecco since 2007. His career starts in PARK Associate’s Office of Milano with the design of well-known Salewa Headquarter. He gets experience even in the field of precast construction and Bio-architecture in the engineering and design department of Galimberti srl Office. The passion of traveling and collaborate with people whom he has shared passion and interests, brings him to move to Australia on November 2009 and to join the staff of BVN Architecture and then to HASSELL office, where he has been part of design teams of the largest projects of the country. He won several International architectural competitions, such as

"International prize for Sustainable Architecture Fassa Bortolo". He has been chosen by the Italian Government as one of the young Italian talents awarded around the world and published on "Young blood 09". The project "SML Residential building in Malaysia" has been awarded and exposed at the Venice's Biennale in 2010. Andrea is A++ referral for sustainable architecture, Building physics and he is the person in charge for LEED certification for any A++ realization.

8- Arch. Luca Stancari
Architect
l.stancari@a2plus.it

Born in 1987 in Modena, graduated in architectural science at Polytechnic of Milan in September 2009. During his bachelor, he attended many specialist courses, and one of which, a contemporary stone design course, has led him to expose in Marmomacc international stone exhibition, with his stone pavilion design, in 2009 in Verona, and published in many specialized magazines. He also attended a design workshop at Le Corbusier's Tourette monastery, near Lyon. He studied architecture sustainability both during his internship at Arkè studio based in Modena, and while developing his research and design thesis about sustainable neighbourhoods. After the bachelor, he attended the 2-year master in architecture at Polytechnic. Following his passion for travelling and discovering new realities, he studied 1 year overseas, at the Queensland University of Technology in Brisbane, Australia. He came back to Italy in February and he is now working at A++ as an architect, both to address sustainable architecture design and competitions.

9- Arch. Desislava Sredkova
Product & Interior Designer
d.sredkova@a2plus.it

She gained the Bachelor of Industrial Design at the Technical University of Varna (Bulgaria) in 2007 and she obtained a master degree in Interior Design, at NABA Milan (Italy) in 2008. She worked for two years as a Designer and Branding Specialist at Iskash Ltd in Bulgaria. Thanks to her artistic sensibilities, she has won several awards such as the National round of Electrolux Design Lab 2010, a Third place in the Second Cherga Product Design Contest 2011 and a nominee for the Annual Competition "Bathroom of the year" Ideal Standard, in Bulgaria. She moved to Italy in 2009 and she started the collaboration with A++ as Product and Interior Designers. She is engaged with developing several product design projects and she is part of the interior design team of the company working on public and residential spaces.

10- Eng. Raffaella Tedeschi
Project Manager - cost control
r.tedeschi@a2plus.it

She graduated at the Politecnico di Milano in Engineering Construction in 1999. She collaborates until 2006 with Immobiliare Europea, dealing with designing and construction of shopping centers and also participating in the planning phases of the new buildings.

Collaborates with the Studio “Progetto CMR”, expanding retail design and dealing with technical insights for selecting construction materials. She has worked for many years in the Studio “ Lombardini22” where she was mainly involved in big retail development for both international and Italian clients. Her roles covered both the technical coordination and cost control. During the last couple of year she took on Project Management roles, working on big project for Pirelli reorganization. In A++ se is Project Manager and cost auditor.

11- Arch. Ulrike Morandell

Architecture, interiors design,
conceptual & executive projects
u.morandell@a2plus.it

Born in Bolzano in 1979, she graduated with Master in Interior Design at the istituto superiore di architettura e design, (IED) in Milan. The family business, involved in residential building , provided the guide to real applications and in terms, to cope with various technical and compositional problems. ?In this context, and through various further collaborations , she acquired a thorough knowledge of structural and compositional techniques of the project in every respect to which applies a mixture of speed of execution entangled by formal rigor to which she in a mixture of rationality and imagination. ?With A++ she collaborates from conceptual design through to the implementation of some of the most important projects of the study.

12- Arch. - Eng. Andrea Brivio

Architect, engineer, LEED Certifier
a.brivio@a2plus.it

Andrea Brivio was Born on 20 February 1982. He obtains a Master degree at Faculty of Building Engineering-Architecture at Polytechnic of Milan in the 2006 and enrolled in the Engineer National Register of Lecco since 2007. His career starts in PARK Associate’s Office of Milano with the design of well-known Salewa Headquarter. He gets experience even in the field of precast construction and Bio-architecture in the engineering and design department of Galimberti srl Office. The passion of traveling and collaborate with people whom he has shared passion and interests, brings him to move to Australia on November 2009 and to join the staff of BVN Architecture and then to HASSELL office, where he has been part of design teams of the largest projects of the country. He won several International architectural competitions, such as "International prize for Sustainable Architecture Fassa Bortolo". He has been chosen by the Italian Government as one of the young italian talents awarded around the world and published on "Young blood 09". The project "SML Residential building in Malaysia" has been awarded and exposed at the Venice’s Biennale in 2010. Andrea is A++ referral for sustainable architecture, Building physics and he is the person in charge for LEED certification for any A++ realization.

13- Eng. Andrea Corti

Engineer - sustainable strategies

a.corti@a2plus.it

Born in Lecco in 1987, after scientific study, he graduates with a Master degree at Faculty of Building Engineering-Architecture at Polytechnic of Milan and enrolled in the Engineer National Register of Lecco. He builds up his interests in sustainability through studies over strategies for energy retrofit residential Building and working on on RACEM project, whose purpose was to develop strategies for sustainable building. After a cooperation with the engineering company AIACE srl in Milan, he joins A++ where he is essential part of the team that implements sustainable strategies on all A++ developments. He is an energy certifier, member of CENED.

14- Eng. Giulia Givelli

Engineer - sustainable strategies

g.givelli@a2plus.it

She was born in Bergamo but she obtains a Master degree at Faculty of Building Engineering-Architecture at Polytechnic of Milan and immediately after She enrolled in the Engineer National Register of Bergamo. The development of sustainable realization has always been her major preoccupation and during her career she has collaborated with RACEM , in the developing of sustainable residential developments, AIACE, studio Buizza and F+G associati where she has collected experiences in technical design of construction elements, related to green building and sustainable strategies. In A++, Giulia holds a leading position in the team devoted to the development of sustainable strategies for housing and engineering design.

15- Arch.Luigi Martinelli

Architect - Sustainable architecture

l.martinelli@a2plus.it

Born in Potenza in 1984, He graduated in Product Design on February 2008. In his home town he has developed studies for touristic self-sufficient facilities,ARCHLAB, He then joined the Politecnico University of Milano, attending the Faculty of Interior Design.priorly to moving to lisbon where he collaborated with the architectural studio, CVDB, developing 3d models, rendering, preliminary and shop drawings. Back in Milano has been working at FTA where he has been in charge of the development of architecture from its concept stage to its implementation. He recently joined A++ adhere he actively place himself in the heart of architecture decision making.

16- Arch.Ilenia Viscardi

Interior Designer

i.viscardii@a2plus.it

She graduated in architecture at the Milan Polytechnic in 1998. Always carrying with herself the passion of the craft world, she develops her professional career through years of precious experience in the design of interior architecture in several projects where throughout the

technicality and artistic passion leads to the evidence of the obsessive attention she dedicates to detail and the original use of materials. Here begins a styling path that combines traditional craftsmanship with the latest technologies and through which she implements projects spanning in both the classical and the modern world. Through collaboration with important furniture companies she develops in-depth knowledge from design through to implementation support, by attending the artisan production facilities. She has planned exhibitions and shops, private interiors and commercial ones completing her experience with shipbuilding interior design. Current focus is on interior architecture from inception all the way to the construction site.

17- Arch. Chiara Airoidi

Interior Designer

c.airoidi@a2plus.it

She was born in Lecco, Italy, in 1987. She graduated at Polytechnic of Milano with Master in Interior Design. She has had collaboration with Franco Origoni e Anna Steiner, developing interiors and exhibition projects such as “Meteforfosi” during the Salone del Mobile in Milano and “Avanti Popolo” that was held in the prestigious Triennale Bovisa. She also boasts collaborations with Thore Schaier also for interior and exhibition projects, collaboration that ended with the execution of the “Flat Felt”, in Lecco in 2012, year that has seen her enrolling in the A++ team. Where she takes care of interior design for both residential and commercial international projects.

18- Arch. Nicolò Zanolo

Architect

n.zanolo@a2plus.it

Born in Borgosesia (Vercelli) in 1985, he graduated at the Faculty of architecture at Politecnico di Milano. Since the college years he shows great interest in graphic and interior design as well as architecture and he works with several companies and design firms as Makio Hasuike & CO. as 3D artist. It has also always been interested in the design of exhibition stands for trade fairs of international importance. Between 2010 and 2012 he works with some architectural firms designing shops and showrooms for a well-known German fashion designer and the company Nespresso, before getting in touch with Carlo Colombo and A++ in the same year. In A++ he deals with the design and architectural direction of high level private projects in of international value from concept to executive phase.

19- Arch. Nicolo Verganti

Landscape designer

n.verganti@a2plus.it

Born in 1987, he graduated from the Polytechnic of Milan, IT with a Master of Science in Architecture and Landscape, and a Master in Landscape from the école d'architecture in Versailles, FR. After this Master, he also becomes assistant professor in Versailles following different laboratories, and participates at several projects and competitions in South America and

UAE. Back in Milan he joins Andreas Kipar's firm, LAND, following some major projects mostly based in Italy. He has worked in Paris designing luxury residential projects before joining A++ where he currently supervises the Landscape developments of the group.

20- Marco Alfonso

3d Artist

m.alfonso@a2plus.it

Born in the province of Livorno in 1976, he graduates in arts in 1996 . He deepens his knowledges collaborating with important firms by modeling and rendering 3d design, showroom concept and exhibitions. From 2007 he has collaborated with firms such as Tecnogym, Cantine Bellavista, Fendi, Prada, Autostrada pedemontana spa and Apple for its apple store's 3d modeling. He has modeled and rendered the Rolex stores of Portofino, Mantova, Forte dei Marmi and Venezia and he has been the editor for the 3d project of the new Renzo piano cultural center of Athens, Stavros Niarchos Cultural Centre. He is now in charge of the image ring and 3d modeling of A++ in Lugano.

21- Arch. Geltrude Bartiromo

Architect - 3d visualization

g.bartiromo@a2plus.it

She was born in Salerno in 1980. Graduated in Architecture at the University "Federico II" of Naples, after completing part of his studies at the "Ecole d'architecture de Lille". Her early works take shape in the Family studio, where she began her professional growth since the early years of college and where she will learn the basis that will lead into her professional growth. After an internship at the design studio of the municipality of residence, where she draws the concept of enlargement of the municipal office, she began an ongoing collaboration for over 4 years at the studio "Granese Architecture and design studio" where she goes to the heart of the design by following all phases, she also has develed special expertise in interior design, design and exhibit design throughout collaboration with the international trade fairs "host", "Salone del Mobile" and "Cersaie". Thought all the years she has developed particular skills in developing open concept and taking responsibility for photorealistic visualization. in A + + she is responsible for the process related to the three-dimensional visualization, augmented reality as well as taking active part in the development of the architecture firm.

22- Eng. Antonio Iorillo

Engineer - Sustainability auditor

a.iorillo@a2plus.it

Born in 1986, he graduated in Architecture and Construction Engineering from University "La Sapienza" in Rome. While attending college he worked in the Sisteia S.A.S. and Euomade S.R.L. studios of Rome. He managed several situations, in both companies, working in team and by himself, on defining priority, responsibility and with strict respect timelines. In A++ he is working on foreign engineering design, mainly in the UAE, developing in-depth economic analysis interacting with experts on site, on all sustainability aspects of the projects.

23- Arch. Paola Satalino

Architect - composition and interior

p.satalino@a2plus.it

Paola Satalino was born in 1983 in Cisternino, Puglia. She decided to become an architect when she was nine years old, during a trip to Venice. She received a Master Degree with honors from the 1' Faculty of Architecture of the Polytechnic of Milan in July 2010. During the architectural studies, she was an exchange student at Universidad SEK, Escuela Tecnica Superior de Estudios Integrados de Arquitectura, of Segovia, Spain, in 2006-2007. Her career started as an external consultant at Jacobs Italia S.p.A. in 2007, cooperating on detailed design drawings for the project "Porta Nuova Varesine", a urban multifunctional complex in the historical centre of Milan. After living in Milan, she moved to Berlin before, and to her home town in 2011. Here, prior to join the firm in May of 2014, she worked on typical Mediterranean style private houses and on the renovation and re-use of abandoned old rural constructions. Paola's practice focuses on Architectural Composition and Architecture of Interiors.

24- Eng. Eleonora Guzzini

Engineer - Sustainability auditor

e.guzzini@a2plus.it

Born in 1987 in Recanati, Italy. She graduated with a Master degree at faculty of Building Engineering – Architecture at Polytechnic of Ancona in the 2013. She enrolled in the Engineer National Register of Ancona. During her study she increased her background working on foreign architecture, like realizing a village and a waterfront located in the commercial and residential area of Hue, Vietnam. In A++ she has joined the engineering group and she is actively working on national and international projects that gain from her highly developed organizational skills.

25- Arch. Derek A. Piemonti

Architect

d.piemonti@a2plus.it

Born in Orzinuovi (Brescia) in 1983, he graduated at the Faculty of architecture at Politecnico di Milano. From 2008 to 2011, he worked with the "3m03 Architetti Associati" with the architects Germano Rovetta and J.C. Dall'Asta. Since 2011 he collaborates with Germano Rovetta and between October 2012 and January 2013 he worked at the studio José María Sánchez García in Madrid. In April 2013 took part in the competition organized by the Biennale Call For Ideas Public Space in Rome where the project is selected as a finalist and awarded during the opening ceremony of the Biennale. In 2010 he participated at the first edition of the International Summer School at the Politecnico di Milano in called "From landscape to exterior design", where, with his team, he received the first prize. For all 2013 has developed the project "Battito Architettura research focused on the formal and sustainable study.

26- Arch. Teresa Martin

Architect & interior Designer

t.martin@a2plus.it

Born in Valladolid (Spain) in 1987, she graduates with honors in Architecture in September 2012 at the University of her home town after a comprehensive academic training of six years, from which one studied at the École d'Architecture di Nancy (France). She briefly collaborates with the Spanish architecture firm Salinero-Pampliega and takes part in diverse research projects at the University of Valladolid. She then moves to Milan to take a Master Degree in Interior Design at Marangoni Institute, and right after it she enrolls the interior design team at Visionnaire Design Gallery in Milan. Six months later she joins A++, where she actively works as an architect developing international projects from the concept phase to the full definition of the space, becoming a dynamic member of the team

27- Arch. Roberta Sironi

Architect

r.sironi@a2plus.it

Born in Lecco in 1984, she graduated from the Faculty of Architecture of the Polytechnic of Milan. As a result of courses carried out before graduation, she holds the title of energy certifier and safety coordinator on the worksite. She began her career in the Studio Pandolfi, in Bergamo, where she was responsible for conservative Restoration and she has developed extensive experience in project management through her collaboration with MCM in Milan where she falls in love for architecture and its processes from design to realization. In October of 2010 she joins the Studio Lombardini 22, in Milano where she acquires a significant experience through intense work in various national and international projects. The urge to get back into the game led her to join A++ where she is in charge of various project development taking care of the whole architectural process, from concept to construction.

28- Arch. Fabio Corbella

Architect

f.corbella@a2plus.it

Fabio was born in Como in 1985. In 2009 graduated in Building Architecture at the faculty of Civil Architecture at Politecnico di Milano. In the same year he attended a master in Lighting Energy and Virtual Design at the Politecnico di Milano and European Community. In 2007 did an internship at the Studio d'architettura Mantero in Cernobbio (Co) and in 2008 an internship through Politecnico di Milano and the Belarussian National Technology University at Studio Korburt in Minsk. In 2010 he worked as tutor for students at the faculty of Landscape Architecture at Politecnico di Milano at the laboratory of project with a course in Urban Hybridization. From 2010 to 2011 he collaborated with the studio of Prof. Arch. Marco Frontini in Carbonate (Co). From 2011 to 2013 he was project architect for VOLPATO HATZ in Carona (Switzerland) where he developed architectural and product design projects for the Australian, Swiss and Italian market for both privates and important international brands. He has also been committee member of culture and FAI of Rotary International. In 2013 starts collaboration with Studio Formaggini in Sanremo where he follows project in Monaco and for the Italian and

French Riviera. He is a very flexible figure in A++, where he works for projects in Switzerland and UAE. Thanks to his wide experiences he has skills to follow all phases of all kind of project, from concept to the detail phase.

29- Arch. Alice Fasola

Interior designer

a.fasola@a2plus.it

Alice was born in Como in 1986, she studied architecture at the Academy of Architecture in Mendrisio, graduating in 2011 in architectural sciences, under the guidance of Esteban Bonell. During her studies she attended the atelier of M. Boesh, M. Collomb, M. Arnaboldi, Q. Miller, R., and Cavadini C. Dalnoky and collaborates with the studio of R. Roduner Arzo (Switzerland). From 2012 to 2013 she worked in the studio of architecture and Piccaluga Stella Lugano, taking care of the architectural competition "home from Locarno Film." From 2013 to 2014 she worked took the furniture showrooms Salvioni in Lugano, for the development of solutions for interior design with the best known brands of Italian design. In A++ she joins the team of interior designers integrating her artistic ability with a concrete vision of the international furniture market.

30- Linda Lanza

Designer

l.lanza@a2plus.it

Born in Milan in 1981. Graduated in Industrial Design at Politecnico di Milano. She started her experiences in Emmanuel Babled Studio, during University, developing products such as lamps, glassware and tableware, limited editions and unique pieces, halfway between sculptural art form and industrial design product. After three years working as Interior designer, developing private residential projects for an Architecture Studio in Milan and furniture Showroom, in 2009 she entered in Carlo Colombo Architect team as a freelance product designer developing new products for several firms like A.Lupi, Guzzini, Teuco, Poliform, Varenna, Bentley, Trussardi home etc. Linda's design approach is based on the idea that Industrial Design can be considered as an Art form, trying to create always simple and unique products.

31- Matteo Borriero

Designer

m.borriero@a2plus.it

Born in Lecco in November 1985, he always been fascinated by the art of representing what has not yet been created. In 2009 he completed his studies in design at the IED in Milan and, after a period in the advertising sector, in 2011 began his career with the architect Carlo Colombo and, thanks to its trust, he can experience at 360° the world of creativity. Eclectic professional, deals with design, architecture, web, 3d graphics and 2d. He deals with both design and architecture creating an alchemy that generates complex architectural volumes. He is always trying to satisfy his desire to innovate and refine his art, hovering between art and rationality. Inside A++, focuses on developing the concept phase of the architecture, as well as being a key element of the design team of Carlo Colombo in developing industrial design products.

32- Anna Wezel

Designer

a.wezel@a2plus.it Follow us: [@A2plus on Twitter](#) | [106788582700975 on Facebook](#)

33- Arch. Svetlana Krstic

Architect

s.krstic@a2plus.it

Born in Leskovac, Serbia and raised in Athens, Greece. Svetlana earned her MA in architecture from the Accademia di Architettura di Mendrisio, in Switzerland, where she studied under Mario Botta, Esteban Bonell, Aires Mateus, Christ&Gantenbein and Aurelio Galfetti. Svetlana collaborated with Orsi&Associati in Bellinzona, Switzerland in 2007 and worked between 2008 and 2011 in Athens-based office Barault. In A++ she is in charge of developing a series of international projects and architectural competitions.

34- Arch. Saloumeh Behboud

Architect

s.behboud@a2plus.it

Born in Tehran in 1982. Between 2003_2007 she has studied at the university of architecture in Cyprus and she has obtained the Master of Science in architecture from Polytechnic of Milan. She has worked for various firms such as Spatium, Keyvan Akhlaghifar studio and Fabio Introzzi studio, working actively with important national and international projects. In A + +, Saloumeh is the referral for A++'s office in Tehran. Her in depth knowledge of both cultures combined with his sensitivity and experience, allows her for a seamless and flexible interpretation, the architectural message, in both worlds.

35- Arch. Polina Soboleva

Interior designer

p.soboleva@a2plus.it

36- Arch. Luca Stancari

Architect

l.stancari@a2plus.it

Born in 1987 in Modena, graduated in architectural science at Polytechnic of Milan in September 2009. During his bachelor, he attended many specialist courses, and one of which ,a contemporary stone design course, has led him to expose in Marmomacc international stone exhibition, with his stone pavilion design, in 2009 in Verona, and published in a many specialized magazines. He also attended a design workshop at Le Corbusier's Tourette monastery, near Lyon. He studied architecture sustainability both during his internship at Arkè studio based in Modena, and while developing his research and design thesis about sustainable neighbourhoods. After the bachelor, he attended the 2-year master in architecture at Polytechnic. Following his passion for travelling and discovering new realities, he studied 1 year overseas, at the Queensland University of technology in Brisbane, Australia. He came back to Italy in

February and he is now working at A++ as an architect, both to address architecture sustainable design and competitions.

37- Arch. Desislava Sredkova

Product & Interior Designer

d.sredkova@a2plus.it

She gained the Bachelor of Industrial Design at the Technical University of Varna (Bulgaria) in 2007 and she obtain a master degree in Interior Design, at NABA Milan (Italy) in 2008. She worked for two years as a Designer and Branding Specialist at Iskash Ltd in Bulgaria.

Thanks to her artistic sensibilities, she has won several awards such as the National round of Electrolux Design Lab 2010, a Third place in the Second Cherga Product Design Contest 2011 and a nominee for the Annual Competition "Bathroom of the year" Ideal Standard, in Bulgaria. She moved to Italy in 2009 and she started the collaboration with A + + as Product and Interior Designers. She is engaged with developing of several product design project and she is part of the interior design team of the company working on public and residential spaces.

38- Marianne Diebow

Interior Design

m.diebow@a2plus.it

She was born in Rostock, Germany, in 1986. In 2007 she graduated in Interior Design at the University of Technology Business and design, in Wismar, Germany, In 2010 she graduated with Master in Interior Design at Polytechnic of Design of Milan. During her study she had different collaborations with important brands like La Feltrinelli, Artemide and Georg Ackermann. During her professional career in both nationally and internationally, she has collected experiences in furniture design, modelling, lighting design and graphic design. In A++ she is working in the fields of residential housing and public spaces.

39- Arch Andrea Cajani

Architect, Urban planning

a.cajani@a2plus.it

Born in Milan in 1981, he graduated in Construction Architecture in 2004 and gained the Architectural Science Degree in 2011 specializing in Interior, exhibition spaces and Urban Planning. His projects and his achievements have as common guideline, Architecture, and the opportunities this art gives to make changes for the modernization of both the private and public spaces of the city, with a particular sensitivity in the history of places and their social implications for those who live them. He is Son of the noted architect Marco Cajani, specialized in planning and urban design, transformation and requalification of spaces, the conservative restoration of buildings, the design and construction's supervision . Together with his father and his brother, he is a member of the 3C Cajani - real estate &Property Solutions, an activity that involves the design, construction and sales high-quality residential and commercial units. in 2012, he became member of partner of the A++ Milano Team, with whom, as well as cooperating in the design to architectural competitions as urban

planner, promotes quality design solutions. his inter-cultural activities have seen him involved in organizing the presentation of paintings exhibitions and contemporary sculpture placed in architectural spaces typologically interesting for their historical and social meanings, as the court of Lombardy, the abandoned production area and Villa Borghese. His publications include several articles in local newspapers and magazines on the debate on the development of the territory in the Milano great area and some works by his father.

40- Arch. Armine Arustamyan

Architect

a.arustamyan@a2plus.it

Born in Georgia in 1987. She studied in Moscow Architectural State Academy (MARCHI) from 2004 to 2008 and has graduated with bachelor degree in architecture certified by RIBA. In 2011 obtained a Master of Science in Architecture and Engineering in Polytechnic of Milan following the international course named Landscape Architecture. During her studies collaborates with international teams of architects developing various projects followed by well known architects such as Cino Zucchi and Stefano Boeri and explores multiculturalism and diversity of design strategies. She starts her career in Moscow and further collaborates with CZA architetti where she participates in variety of known projects such as "Christ's resurrection" church in Milan, National Automobile Museum in Turin, "In the body of the city" for MAXXI museum in Rome etc. She collaborates with A++ since 2012 developing projects and competitions, which have a transnational orientation.

41- Arch Alberto Mussi

Architect & project manager

a.mussi@a2plus.it

He was born in Monza in 1960, he graduated in architecture from In politecnico of Milano in 1987. His family history, furniture maker for generations, led him to address the issues related to the development of construction sites and analysis of issues related to production and installation of furniture from an early age. His career saw him engage in architecture in its most comprehensive sense; Designer, Member of the Technical Committee UNI, rapporteur and curator for exhibitions and events in Italia and abroad. Remarkable is the experience gained during his long collaboration with the arch. Luciano Grugni, with whom he develops architectural projects in commercial, public and private sectors. The propensity to analysis and problem solving developed in the field is reflected in every project, in which it is clear the will to apply the practical knowledge as opposed to design issues that are a stimulus for the architect's creativity. Author of projects that are characterized by an almost maniacal care to detail and use of new materials and new construction techniques, He is collaborating with Arch. Paolo Colombo since before the birth of the studio and is today a reference for the coordination and planning for the project management of European works of the studio.

42- Eng Alessandro Bombaci

executive project detailing & technical
engineering project management

a.bombaci@a2plus.it

Born in Milan on 02/04/1972, after graduating in science, graduated from the Politecnico of Milan in Civil Engineering / Architecture. Since the first experiences work, the eng. Bombaci is placed in direct contact with production realities through which he develops attitudes to analysis and problem solving. In his professional history, he develops and deepens the themes related to issues of energy saving and green building applying an innovative approach and an ongoing research to achievements of its mission. He developed the design implementation of several projects for several major studies in the milan area and for independent realizations. The studio draws from his expertise and experience for engineering issues, and Executive project of the technical issues of environmental sustainability and the environment for important achievements in the world.

43- Arch Maria Dimitriadi

Conceptual, Executive projects &
detailing

m.dimitriadi@a2plus.it

She was born in Athens in 1977 where she lived and studied up to eighteen. Completed her studies at the Faculty of Architecture in Milan and the School of Architecture of Lyon in France. Her forming path and professional development lead to trial design and development of innovative projects for housing, as well as public and private development and redevelopment of urban and mixed residential areas. In her projects it is clear the will to observation taken with penetrating curiosity of things, whether ancient or contemporary, and an innate predisposition to the study of detail, their design and their quality, conceived as part of the whole, as constituent and essential to the definition of architecture. She is with the firm since its inception and in charge of post conceptual stages of high artistic value's projects.

44- Arch. Rosanna Mustich

landscape design & architecture

r.mustich@a2plus.it

Follows the art diploma with a degree in architecture at the University "La Sapienza" in Rome. She develops particular interest in disciplines related to art and graphic design by which develops the complex geometries involved in landscape design and sustainable architecture, always grasping the location vocation, translating and reinterpreting it in a language in complete harmony with the existing framework, using a creative cross-interdisciplinary process, taking cues from the worlds of architecture and art. she collaborates with the studio since 2006 for which develops themes relating to landscape and architecture heavily contaminated by his passion for art and botany.

45- Stefania Tremolada

Visual

s.tremolada@a2plus.it

She gains the diploma of art director at the Institute of Fine Arts of Brera in Milan in 1999. The passion drives her to fill the various roles and activities related to art in its broadest sense: sculpture, painting, costume making and design, restoration of furniture and paintings. The Territorial reality in which she lives, requires an interconnection between painting and graphic design with architecture and interiors design, for which she develops a deep interest and that will become, over the years, her true profession. Through partnerships with major companies and industry manufactures, she designs interiors and decorative analysis for a multitude of projects, many of which closely related with Paolo Colombo's professional history with whom starts an intense working relationship many years before the birth of the studio. She collaborates with the firm since its establishment to realize projects of high value, characterized by a refined mix of history and design, and an absolute mastery of the keys of interpretation of different languages, ages, and styles.

46- Sergio Studer

Designer

s.studer@a2plus.it

He was born in Arequipa (Peru) the 15th of July 1980. He arrived in his future home town Zurich after spending one year in Germany 1984. His education allowed him to deepen his knowledge about art and design. Besides, he had the possibility to enter into contact with important realities such as Lehrwerkstätt für Möbelschreiner, that have been only the beginning of a long and interesting career in the design world. As a completion, Sergio attended a master in Industrial Design, in the Milan Politecnico. During these years, he worked for Heuberger Ag and he continued to improve his skills in the art of design. 1st price winner for the Airfrance Design Competition "Style and elegance" for its design of new on board table accessories (currently under development) 1st price winner for the Light Design Award Milano 2009 with his "Luce ciechi" a project for non viewers road sign. and a special mention for Les cravattes par Hermès "Les victims // trèshique" shortlisted 2009 In A++, Sergio is head of our design department and meets clients and producers expectations with his ever surprising work.

A++ Tehran

M2Design Architecture Company is full service architecture, interior design, Construction and consulting firm established in 2008 by its founders in Tehran-Iran. Currently, the firm handles a wide range of corporate, commercial, residential, non-residential projects in Iran.

M2design creates environments that connect people and places, making communities more valuable and believes that the history and the successful results of this group are strictly connected with its Iranian exuberance in social and cultural framework together with an extraordinary creativity, which is nowadays part of its nature.

Architects & pro

47- Golbon Dara

Civil Engineer, CEO of M2Design (Masahat Afareh Engineering Co.)

A++ Canton

DCDA provides interior design related services internationally. The firm was established in 1998 in Vancouver Canada and currently has registered offices in Beijing and Guangzhou. DCDA is also poised to open offices in Taipei and in Shanghai between 2015 and 2017.

DCDA has over 90 professional design and management staffs and continues to apply its unequivocal pursuit of systematic and immaculate attention to details in design to renowned real estate developers in China and abroad. Projects include private residences, marketing sales centers, upscale apartments, villas, clubhouses and hotels.

DCDA's design philosophy that "Only with the touch of referencing in culture, art and function, design can become a timeless soul, other than being just a space with its mere outer beauty," DCDA has successfully integrated function, culture, history and creative elements in each design project. Industry leading design concept coupled with professional design team and international experience in project design and management, DCDA is able to meet client's needs and goals. Exquisite designs are also reflected on numerous successful projects.

DCDA Joins A++ network providing the group with unique design value
